

# BUDGET PLANNER

If you suffered a serious illness or injury, you may lose your income – this could lead to you losing your home. Similarly, if you died, your loved ones may not be able to maintain their current lifestyle without your income.

Having financial protection in place doesn't reduce the odds of something happening to you but it can make life a lot easier for you and your family if the worst were to happen.

Our budget planner can help you calculate your monthly income and expenditure. With the numbers in front of you, it suddenly becomes easier to assess how an illness or death of a breadwinner could impact you and your family's lifestyle and future financial security.
